Highway	River/Powder Line
Secondary Road	Ridge/Physical Feature
Jeeo Trail/Parkway/Ferry	Property/Fence Line
Railroad	Norwesterly Boundary
Stream/Shoreline	Intermittent Stream
Lake	River
Glacier	Hill
Inset	Out Area

Where International, state, and/or county boundaries coincide, the map shows the boundary symbol for only one of them. These boundaries:

- 1 A " following a place name indicates that the place is also a false MCD;
- 2 In 1980, the crew-of-warship population of ships at sea was allocated to census tracts with a "99 suffix". An anchor symbol appeared on the 1980 maps indicating a crew-of-warship tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- 3 A " following a block number indicates that the block number is repeated

The diagram is titled "FEATURES" and shows a grid of map elements. The elements are arranged in a 4x3 grid:

- Row 1:**
  - Highway (represented by a double line)
  - Ridge/Power Line (represented by a line with a central ridge or a dashed line for power)
  - Stream/Shoreline (represented by a blue wavy line)
- Row 2:**
  - Secondary Road (represented by a single line)
  - Pipe/Physical Feature (represented by a line with a central pipe or a dashed line for physical features)
  - Intermittent Stream (represented by a blue dashed line)
- Row 3:**
  - Loop Trail/Wake/Feet (represented by a line with a central loop or a dashed line for feet)
  - Property/Fence Line (represented by a line with a central property or a dashed line for fence)
  - Flow (represented by a blue wavy line with an arrow)
- Row 4:**
  - Railroad (represented by a line with cross-ticks)
  - Nonvisible Boundary (represented by a dashed line)
  - Glacier (represented by a blue wavy line with a central arrow)

At the bottom of the diagram, there are three boxes:

- A blue box with the word "Military" in white, representing a military area.
- A grey box with the word "Inset" in white, representing an inset map.
- A white box with the words "Out Area" in black, representing an out area.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- <sup>3</sup> A "\*" following a block number indicates that the block number is repeated elsewhere in the block.

ENTITY TYPE: County  
NAME: Benton County (005)  
ST: Washington (53)

(90RBLK) 19353005690400000000

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
